**Prof. Krishnan
Balasubramanian**
 Institute Professor,
 IIT MADRAS.
 President-ISNT

It gives me great pleasure to welcome you to NDE2024 Chennai, the next marquee event for the NDT community to be held in Chennai. NDE2024 promises to set new benchmarks in international participation from speakers and exhibitors, participation from stakeholders and industry, integration of academia and practitioners.

The NDE2024 will be hosted at the NEW WORLDCLASS Convention Facility of the Chennai Trade Center. As the President of the Indian Society of NDT, I would like to share that ISNT is transforming itself into a new, responsive, relevant, and ubiquitous Society for the NDT stakeholder.

The buzzing startup eco-system and the emergence of many technology companies in India are now significantly changing the perception of "made-in-India" both in India and worldwide. Indians today form the largest manpower worldwide implementing NDT technologies. With more than 6000 active members, Training and Certification programs including ICN, the recent ISO 9712 accredited program, the new ISNT app and website, plans for expansion of ISNT Chapters outside India, among many new initiatives, is making ISNT more relevant and responsive to the global NDT community.

I am eagerly looking forward to your participation in the NDE2024 and will be there to welcome you.

Prof. Krishnan Balasubramanian
 Institute Professor,
 IIT MADRAS
 President-ISNT

Chairman-NDE 2024

NDE fraternity have a major responsibility in the societal transformation and the technological advancement adapting innovative ways in an extremely fast pace. The entire NDE fraternity leaves foot print on the marvelous achievements happening in the country and around the world. Essentially the demand of the hour is to align ourselves for fulfilling the national mission. In this respect, transition towards advanced NDE techniques from conventional one with the synergistic adoption of automation, robotics, sensors, artificially intelligent systems, will play dominant role.

It is of proud privilege and honor to welcome you all in the upcoming NDE 2024 Conference – A platform to NDE professional, researchers, academia and industry to converge for igniting professional minds and innovate in the field of Non-Destructive Evaluation. The theme of the conference is aptly chosen as “Imagine, Innovate, Ignite, Inspire” keeping in mind the exciting technological development around the world. The conference provides a premier platform to all the NDE professionals for sharing ideas with expert in the field, creates ambience for in-depth interaction and collaborate industry, academia and R&D centers.

The Organizing Committee is committed to offer a blend of dynamic technical program along with state-of-art exhibition of NDE technologies from Industry across the globe. Special emphasis will be on latest trend in the field of conventional and advanced NDE with adoption of artificial intelligence, Machine learning, automation, robotics and advanced sensors. The conference also wishes to experience the presence of NDE in the field of medical science, biology and beyond. Apart from all these, the conference venue being in the city of Chennai which is close to several heritage sites and serene natural beauties, will surely make the joyful stay of the participant.

We are so confident that the 34th National Conference and Exhibition (NDE-2024) will turn out to be the most successful platform for networking and inspiring new technical ideas with the support from all of you. I cordially invite all to participate with full enthusiasm in this NDE festival, to enrich and experience the taste of a truly global event.

Komal Kapoor
Chief Executive,
Nuclear Fuel Complex.
Chairman-NDE 2024

Mr. Umakanthan Anand
Senior VP - Reliance Industry Ltd.
Convenor-NDE 2024

Non-destructive examination as a technology has grown leaps and bounds over the past couple of decades. NDE has become an inseparable engineering element of any industry including Oil & gas, Power, Shipping, Aviation, Space, Rail, Metal processing, Electronics etc. The basic science of Optics, Sound, Electro-magnetism, Radiation, Infrared etc., have been explored and improvised to such great depths that the terms “Integrity and Quality” have become synonymous with NDE. The power of computation and drones has taken the application of NDE to ever newer heights. The newest demand from the industry is “On-line & Real time” and the NDE experts are racing to make this possible. The annual ISNT conference NDE 2024 is the gala event where all these advances will be demonstrated. NDE-2024 will be mirroring all the advancements that has been happening in NDE, both in India and abroad. The theme of the conference has been aptly given as “Imagine, Innovate, Ignite & Inspire”, which sets the tone and expectation for the participants. The conference will be the precise event for students, beginners, and experienced professionals to come and explore themselves the latest in NDE. For the exhibitors the conference promises to provide the presence of people from the end-user industries. For the delegates the conference promises to provide a wealth of knowledge, solutions, career prospects, acquaintances, and a little bit of fun with fellow NDE comrades.

Umakanth Anand
Senior VP
Head - Reliance Industry Ltd.
Convenor-NDE 2024

Event Programme at a Glance

12th – 14th Dec 2024

Day 1: 12th Dec 2024 (Thursday)	
09:30 – 10:45 hrs	Conference Inaugural Function
10:45 – 11:30 hrs	Inauguration of Exhibition, Visit to Exhibition Area& Tea Break
11:30 – 12:15 hrs	Memorial Talk – 1
12:15 – 13:00 hrs	Memorial Talk – 2
13:00 – 14:30 hrs	Lunch
14:30 – 16:00 hrs	Plenary Session –1
16:00 – 17:00 hrs	Open Session (Poster Session – I & Visit to exhibition) & Tea Break
17:00 – 18:30 hrs	Technical Session 1
18:30 onwards	Cultural Programme with Networking Dinner
Day 2: 13th Dec 2024 (Friday)	
09:00 – 10:30 hrs	Plenary Session – 2
10:30 – 11:00 hrs	Tea Break
11:00 – 12:30 hrs	Technical Session – 2
12:30 – 14:00 hrs	Lunch
14:00 – 15:30 hrs	Technical Session – 3
15:30 – 16:30 hrs	Open Sessions, Poster Session – II & Visit to Exhibition & Tea Break
16:30 – 18:00 hrs	Technical Session – 4
18:00 – 19:00 hrs	Open Sessions, Poster Session – III & Visit to Exhibition ISNT AGM (Only for ISNT Members)
19:00 Onwards	Gala Dinner
Day 3: 14th Dec 2024 (Saturday)	
09:00 – 10:30 hrs	Plenary Session – 3
10:30 – 11:00 hrs	Tea Break
11:00 – 12:30 hrs	Technical Session – 5
12:30 – 14:00 hrs	Lunch
14:00 – 15:30 hrs	Technical Session – 6
15:30 – 16:30 hrs	Open Sessions, Poster Session – IV & Visit to Exhibition & Tea Break
16:30 – 17:00 hrs	Valedictory Function

Benefits of Registration

1. Access to the entire technical program and exhibition area
2. Access to lunch, dinner and entertainment program
3. Conference kit comprising of Souvenir and Proceedings
4. Opportunity to present the paper in the technical programme
5. Certificate of Attendance (16Contact Hours), which can be used as a supporting document for renewal of Level III certificates
6. Entry only one day as selected, Access for all technical sessions, exhibition and lunch of the selected date / No on spot registration and kit bag

Delegate Registration Fees

Delegates	Upto Aug 2024	Sep - Oct. 2024	From November / spot reg

PRE-CONFERENCE TUTORIAL

1

11th December 2024

Indo-German Pre-conference Tutorial on Advanced NDT & E for Civil Infrastructure

Several infrastructural assets (bridges, offshore structures, dams, power/petrochemical plants, refineries etc.) are steadily aging and deteriorating, and many of them are beyond their design life. Due to shortage of resources to replace them, it is now necessary to extend their design life without compromising the underlying human risk or incurring unnecessary financial burden. Further, in spite of extremely rigorous and stringent time-based maintenance regimes, and the most advanced analysis based design principles followed in the critical/life-line structures, catastrophic failures continue to take place claiming invaluable lives and critical engineering assets. In the last decade and half, there has been an overwhelming interest throughout the engineering communities, to address this issue. Apart from preventing catastrophic failure, a robust NDT & E strategy can provide several other benefits such as significant reduction in the downtime and enhancement of structural integrity, and increase in operating life of the structures. This Indo-German PCT will provide the audience an overview of the advanced and emerging NDT & E technologies, with a special emphasis on real-world challenges being posed by different types of critical structures. The relevant subject experts have been invited to provide the overview of the efficient technologies and also share their experience in addressing the challenges in in-service structures. The primary focus of the present Indo-German PCT to make the practitioners being acquainted with the technologies, their strength and limitations, and the prospects in future. The PCT will also provide a unique opportunity to the participants to learn from the domain experts from both India and Germany, and also interact one to one.

The broad topics covered in this Indo-German PCT include:

- Emerging Non-destructive technologies for inspection and monitoring of Civil infrastructure
- Innovations in instrumentation for NDT&E
- Ultrasonic 3D Tomography
- Distributed sensing for SHM of civil structures
- NDT of underwater structures
- Qualification and Certification – NDT for Structures

PRE-CONFERENCE TUTORIAL

2

11th December 2024

'Data Engineering & Phased Arrays'

This tutorial is aimed at NDE Professionals working at the interface of experimental technologies such as phased arrays and data engineering, encompassing aspects of generation, storage, retrieval and manipulation of sensory information benefiting analytics and prognostics. Practitioners working on advanced NDE techniques who wish to deepen skills in data management will benefit from this tutorial, which delves deep into automation, coded excitations, sensory information fusion, machine learning, array ultrasonics and generative AI.

1 Exhibitors Galore:

With participation from over 100 exhibitors hailing not only from India but also across the globe, the exhibition at NDE 2024 promises to be a dynamic marketplace, from established industry players to emerging startups, exhibitors showcase their products and services, offering attendees a firsthand glimpse into the forefront of NDT technology. Companies, industry leaders, and innovators will showcase the latest advancements in NDT technologies, tools, and solutions, providing attendees with a hands-on experience and a glimpse into the future of non-destructive testing.

2 Knowledge Unleashed

The heart of the conference lies in its comprehensive lineup of over 200 paper presentations. Covering a wide spectrum of NDT methodologies, these sessions will delve into the intricacies of aerospace, automobile manufacturing, power generation, infrastructure, and other key industrial sectors. From case studies to future trends and challenges, the presentations will provide a deep dive into the evolving landscape of NDT, offering valuable insights to the 1500 anticipated delegates.

3 Distinguished Speakers and Keynotes:

The NDE 2024 Conference & Exhibition does not merely serve as a platform for showcasing the present state of NDT but also lays the foundation for the future. The event features keynote addresses from thought leaders and visionaries in the field, providing a roadmap for the evolution of NDT in the coming years. Emerging technologies, such as artificial intelligence and robotics, are highlighted as catalysts for transforming the landscape of non-destructive testing, promising increased efficiency, accuracy, and cost-effectiveness across aerospace, automobile, power, and other industries. The NDE 2024 Conference is set to host keynote speakers who are trailblazers and visionaries in the field of NDT. Their insights will serve as guiding lights, illuminating the path forward and addressing the challenges and opportunities that lie ahead. These thought leaders will share their expertise, shaping discussions that will propel the NDT community towards continuous innovation and excellence.

4 Global Delegates Convergence

The event is expected to attract around 1500 delegates, forming a diverse and influential gathering representing various sectors of the industry. This convergence of national and international participants will create a vibrant platform for networking, collaboration, and the exchange of ideas. The cross-pollination of experiences and knowledge is set to transcend geographical boundaries, fostering a truly global perspective on the advancements in NDT.

5 Comprehensive Industry Coverage:

NDE 2024 aims to address the specific needs and challenges of a myriad of industries, including aerospace, automobile manufacturing, power generation, infrastructure, and more. Sessions will not only focus on current practices but will also shed light on NDT certification processes, ensuring the highest standards of quality and safety across sectors. The inclusion of discussions on NDE 4.0 reinforces the conference's commitment to exploring the latest advancements and trends, placing attendees at the forefront of technological evolution.

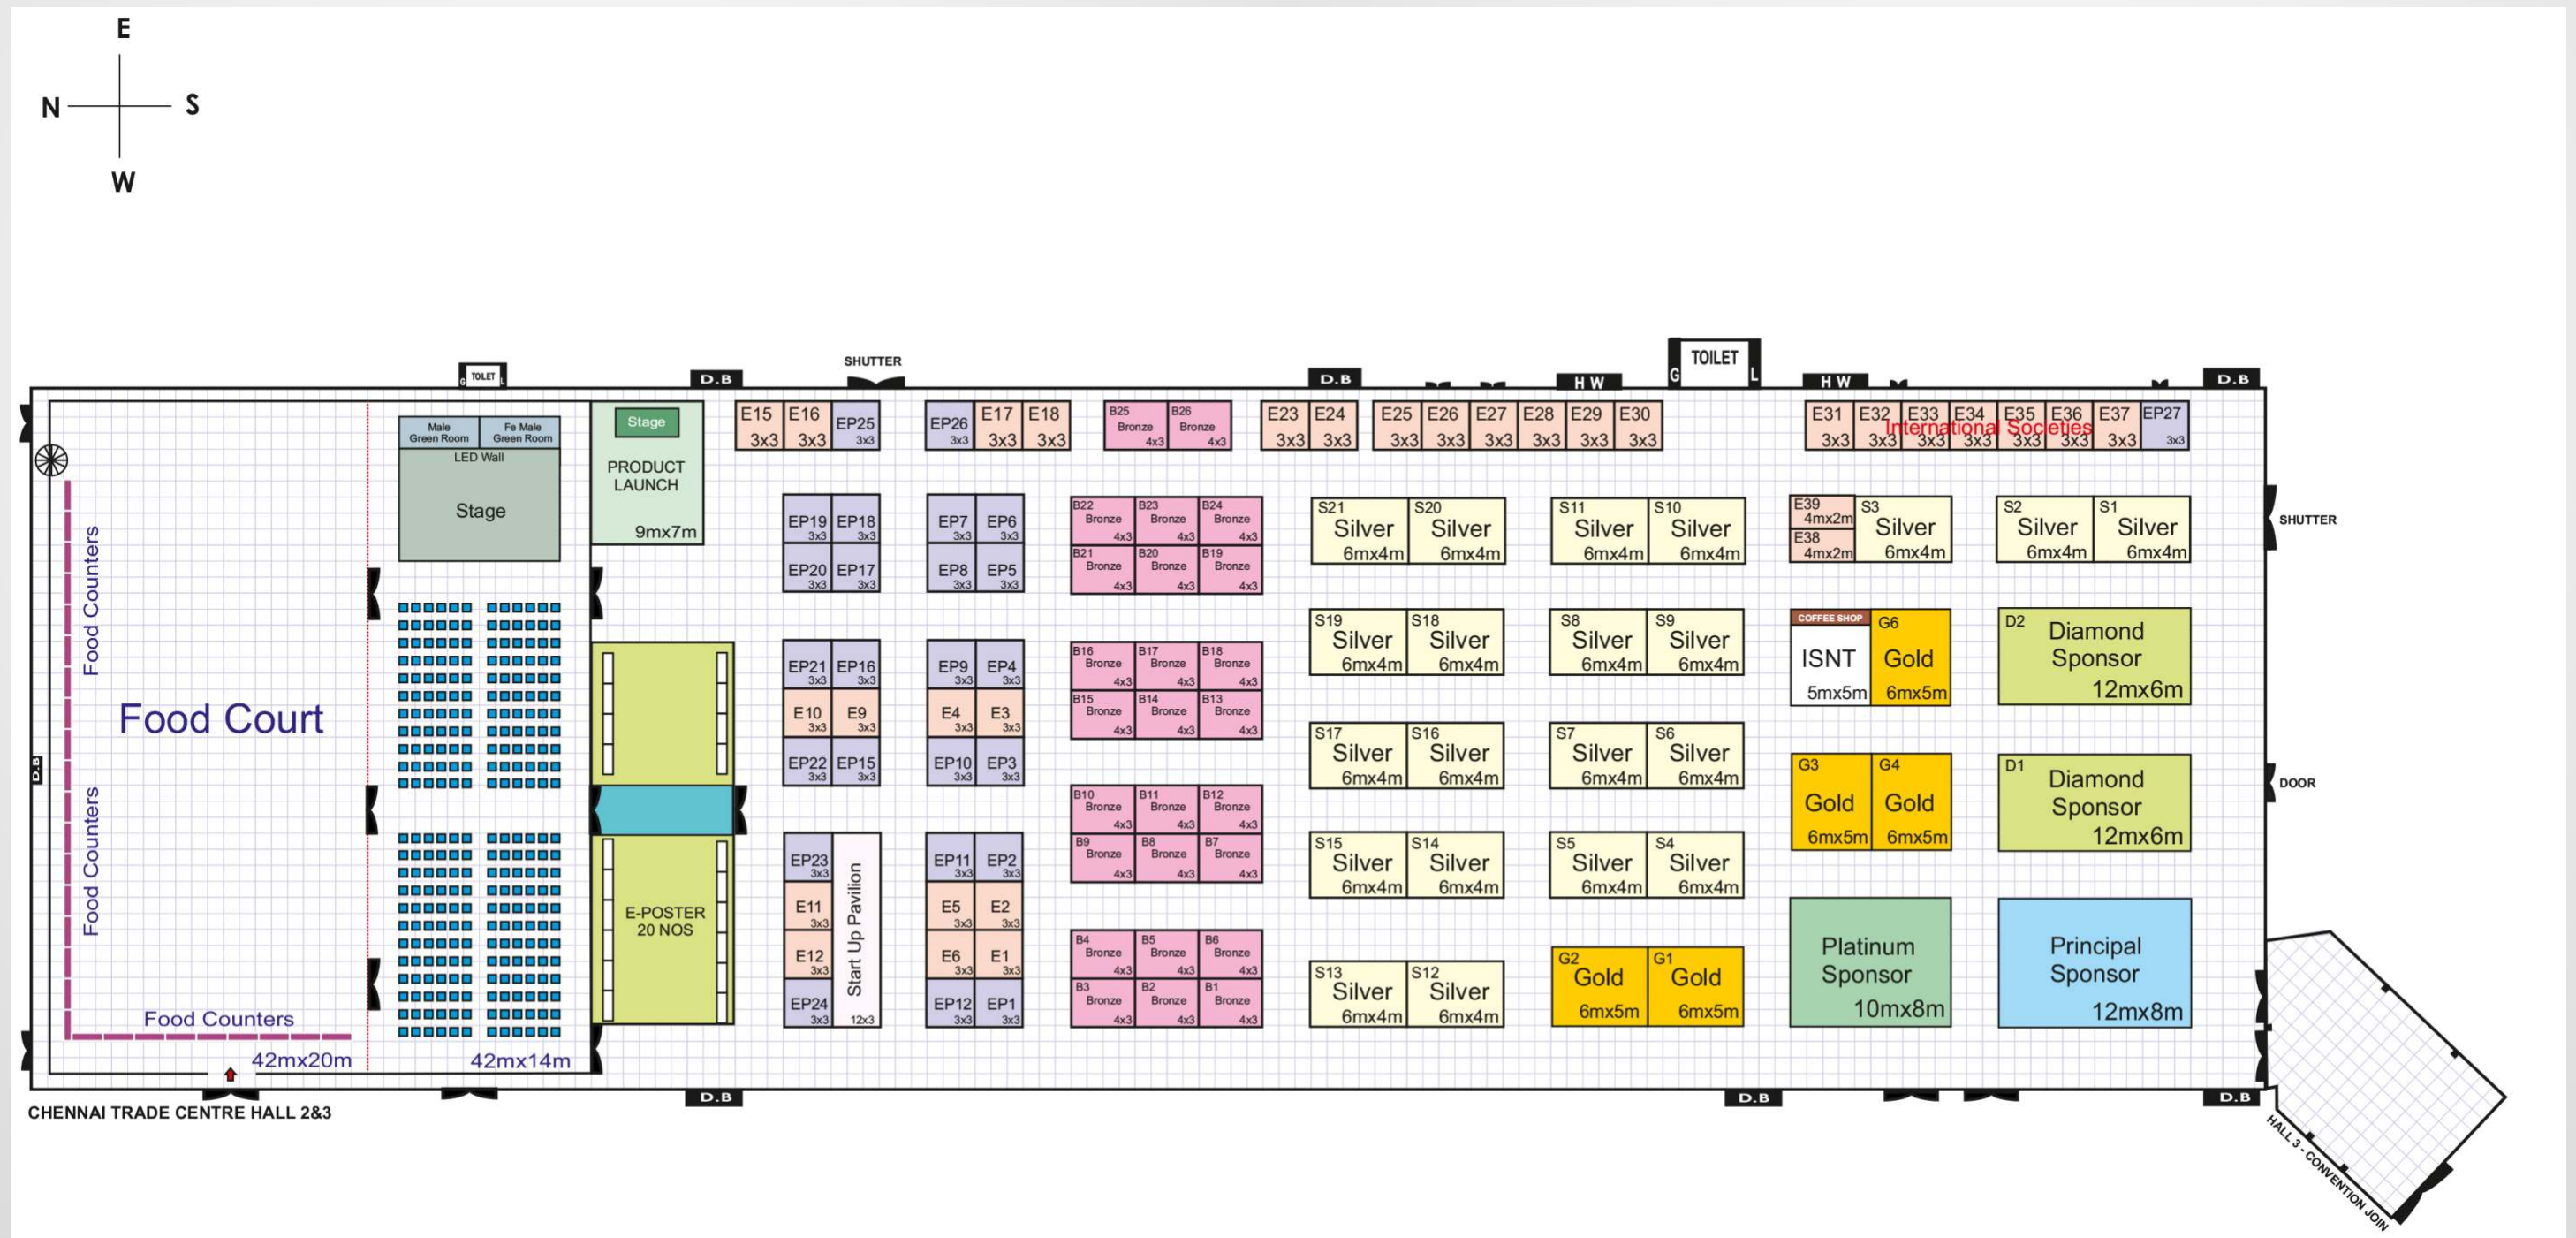

6 Global Transformative Event

The NDE 2024 Conference & Exhibition is poised to be a transformative event, setting the stage for the future of Non-Destructive Testing in India and beyond. From the bustling exhibition halls to the knowledge-packed presentations and discussions, this conference promises to be a melting pot of innovation, collaboration, and progress, solidifying its status as a beacon in the ever-evolving world of NDT.
